Want to test your products on more than 200.000 users?

[HOME](#) [WHY MKB](#) [APIS](#) [HOW TO START](#)

Boost your business with banking APIs

MKB Fintechlab is focused on building the financial ecosystem of the future. Join us, let's build enhanced solutions together.

[HOME](#) [WHY MKB](#) [APIS](#) [HOW TO START](#)

Let's change banking forever, **together.**

Now, thanks to the integration of banking APIs, companies of any size in any sector can now easily integrate financial services into their product offerings and harness the power of APIs. Powered by MKB APIs, you can create new services and offer added value to your clients, allowing you to improve their experience. We would love to partner up with you to take you to the next level.

I'm working on an idea

Have the idea for the next great thing in fintech, a dedicated team and a solution in development?

Join our **12-week incubation program** that is focused on bringing you that commercial partnership with the Bank that you need to launch.

I'm looking for banking partners

Are you an established fintech startup? Or a corporation looking for partners in this market? Find out why MKB Bank is positioned to become the first large digital bank in Hungary and a leader in bank-fintech partnerships in the region.

High security standards

Security and compliance is essential for us.

Easy onboarding

Getting on board is super quick: explore and sign up. We are open for everyone.
